## Topic
MR-ER Sign Project Update (Briefing)

## Confidential
No

## Attachment(s)
1. Holowachuck Estate Sign Plan
2. Young’s Beach Sign Plan
3. Sunset Bay Sign Plan

## Issue
- Update Council on 2019 sign installation project and associated costs.

## Background
- During the 2019 Budget deliberations Council approved a Proposed Operating Initiative to install Municipal and Environmental Reserve Signs in the subdivisions of Holowachuk Estates, Young’s Beach and Sunset Bay.
  
  - The total budget approved was $40,000, which included the cost for sign materials and installation.
  
  - The 2019 Project included 151 signs installed at every second corner junction between privately owned lands and those designated as municipal or environmental reserve.
  
  - The attached maps illustrate the planned sign locations that have been provided to the installation contractor.
  
  - To date $8,795 has been spent on sign and post materials.
  
  - Although the final invoice for the installations will not be known until the project is complete, the estimate given by the contractor was $13,320 including GST.
  
  - The project is expected to be completed under budget.
  
  - On August 27th staff met with the contractor on site in Sunset Bay and 3 signs were relocated in consultation with the landowners.
Strategic Alignment

- Strategy Goal #5 states “We will protect and sustain the valuable natural assets our citizens and visitors enjoy”. Demarcation of Municipal and Environmental Reserves supports this goal by providing public awareness to where these assets are located to minimize degradation and encroachments onto these public lands.

Follow-up

- To accept the briefing as information.
