Highlight of Departmental Activities

December marked project preparation for approved 2020 initiatives including the Asset Management Program for Sidewalk Replacement, Road Resurfacing, Bridge Structure, Subdivision Road Network and Water and Sewer Replacement projects. End of season construction wrap-ups, project close outs, finalizing carry-over obligations and document administration were focused on this month. There were just over 45 County capital and operational projects Engineering Services managed or assisted with in 2019 with 18 of those projects to either carry over or start construction in 2020.

- 18 projects will carry over or have construction start in 2020:
  - Phase 3 of Lakeview Crescent Utilities and 99th Street Surface Rehabilitation.
  - 104 Street Water, Sewer and Natural Gas Replacement, final lift of pavement remains.
  - 95 Street Water Distribution and Storm Sewer from 91 Avenue to 83 Avenue.
  - 104 Avenue Water and Sewer Servicing (Highway 858 Extension).
  - Plamondon/Caslan Connector (Range Road 162), second lift of pavement and clean up remain.
  - Sidewalk Replacement Program, 101 Avenue in Plamondon.
  - Hamlet Resurfacing Program, 101 Avenue in Lac La Biche.
  - Craigend Grader Shop, fencing and landscaping remain.
  - Township Road 682A (Mystic Beach Access Road) Base and Pave, engineering complete.
  - County Shop Expansion Final Phase.
  - Highway 881 Crosswalk Lighting.
  - BF 9799 replacement at Township Road 653 over Beaver River.
  - BF 0294 culvert replacement at Range Road 112 near Rich Lake.
  - BF 77865 culvert replacement at Campsite Road.
  - BF 75684 bridge repair at Imperial Mills.
  - Stormwater Master Plan revision.
  - Sentinel East Storm Pond.

- 21 construction/engineering projects now complete:
  - Township Road 674 Base and Pave.
  - 100 Avenue Base and Pave in Lac La Biche.
  - County Shop Expansion Phase 2 Electrical and Mechanical Servicing.
  - Holowachuk Access Road and walking trail.
  - Elinor Lake borrow pit and access road reclamation.
  - Sidewalk Replacement Program in Lac La Biche.
  - Phase 1 and 2 of Lakeview Crescent Utilities and 99th Street Surface Rehabilitation.
  - Lakeview Crescent Natural Gas Relocation.
  - Archery Facility Water and Sewer Services including gas line installation and oiled road surface.
  - Mission Phase 2 and 3 Water and Sewer installation.
  - In Plamondon, Highway 858 Phase 4 and 5 Water and Sewer construction.
  - General Municipal Servicing Standards (GMSS) revision.
  - Beaver Lake and Plamondon Landfill Pole Sheds.
  - Regional Water Transmission Line Water Study.
  - Bridge Replacement Program for five locations; BF 79415 (RR 153) and BF 72757 (Missawawi Creek), three others were engineered and moved to construction for 2020.
- Subdivision Resurfacing Program for five subdivisions; Young’s Beach, Sunset Bay, Pleasant Acres, John Martin and Golden Sands.

- 7 projects with post construction work:
  - Highway 881 and Beaver Hill Road intersection improvement.
  - Dumasfield Stormwater Pond including 91 Avenue extension.
  - Plamondon/Caslan Connector south section landscaping.
  - Mission Phase 1 ditching, drainage and site cleanup.
  - Stormwater Outlets on 101 AV, 104 AV and paving.
  - Old Trail approach work.
  - Old Trail walking trail erosion control.
